

Take-Off 4T Racing 10W-50

Fully Synthetic Top-Tier 4-Stroke Motorcycle Engine Oil

TECHNICAL DATA SHEET

Product Description:

Veedol Take-Off 4T Racing 10W-50 is a fully synthetic high performance 4-stroke motorcycle oil developed especially for high performance modern generation motorcycles.

Veedol Take-Off 4T Racing 10W-50 is formulated using PAO synthetic base oils fortified with specially selected additives helps to provide outstanding engine cleanliness and excellent wear protection at high temperature.

Veedol Take-Off 4T Racing 10W-50 helps to maintain maximum power output due to inherently strong performance and protection provided by the synthetic technology. This specially engineered motorcycle engine oil helps to deliver unsurpassed performance under severe operating conditions in all seasons, driving environments and on racetracks.

Performance Specifications:

Meets & Exceeds the performance requirements of

- API SN
- JASO MA2 (T903:2016)

Features/Benefits:

- Retains adequate film thickness at extreme temperatures providing reduced frictional losses.
- Excellent oxidation and thermal stability for longer service periods
- Outstanding low temperature properties help easy cold starting.
- Excellent protection against wear, rust and corrosion.
- Delivers superior acceleration with unmatched smoothness.

Application:

Recommended for four-stroke engines of high performance motorcycles.

Typical Properties:

Test Parameter	ASTM Test Method	Typical Value
Kinematic Viscosity, @ 100°C, cSt	ASTM D 445	18.5
Viscosity Index	ASTM D 2270	165
Flash Point (COC), °C	ASTM D 92	246
Pour Point, °C	ASTM D 97	-36
CCS Viscosity @-25°C, mPa.s	ASTM D 5293	5000

Properties mentioned above are typical only and minor variations which do not affect the product performances, are to be expected in normal manufacturing.
