

## VEEDOL Rapid Kool Ultra

### Product Description

**Veedol Rapid Kool Ultra** is ethylene glycol based formulated for optimum performance in heavy duty diesel engine applications but equally suitable for light duty use. It employs established inhibitor technology and is phosphate and amine free. BTC classification type 3EN.

The inhibitors include organic acids in combination with borate, silicate and nitrite which are well known for their ability to provide excellent protection in heavy duty applications, particularly when there is potential for cavitation erosion-corrosion to occur.

**Veedol Rapid Kool Ultra** uses sophisticated silicate stabilisation technology to eliminate the potential for formation of silicate gel often observed with inferior products whilst other additives ensure good compatibility with hard water and prevent the formation of scale that can result from the use of hard water.

### Product Benefits

- Phosphate and Amine free
- Superior cold weather protection
- 3 Year life
- Excellent anti corrosion inhibitors

### Directions for Use

As recommended by the engine manufacturer

### Dosage Information

Freeze Protection:

- 12°C @ 25% concentration by volume
- 22°C @ 33% concentration by volume
- 40°C @ 50% concentration by volume

### Specification Information

Exceeds the requirements of: ASTM D3306, ASTM D 4985, ASTM D 6210, SAE J1034, BS 6580 (2010), AFNOR NF R15-601, JIS K2234.

Meets the requirements of: MAN 324, Cummins ES 14603, Leyland, Fiat/Iveco, MTU, Perkins, John Deere

### Storage Instructions

Store sealed in a cool, dry place

### Shelf Life

3 Years from date of manufacture

### Typical Properties

|                  |                      |
|------------------|----------------------|
| Appearance       | : Clear Green liquid |
| Odour            | : Odourless          |
| Specific Gravity | : 1.128 (Typical)    |
| Solubility       | : Miscible in water  |
| Flashpoint       | : 111°C              |

Manufactured under the authority of Veedol International Limited, UK
